- A. Please contact ShopFactory Support to have it changed in a Future release.
- B. To change it immediately in your shop please follow the steps below:

For example, most recently NKr changed to NOK

For Windows 7, 8, 8.1 and 10 users:

- 1.) Open File explorer.
[Click here on how to open File Explorer](#)
- 2.) At the "Address: " bar, enter:
C:\Program Files (x86)\ShopFactory V14\ShopFactory
- 3.) Press Enter Key from your keyboard.
- 4.) Locate the file called "Currency.xml" file.
- 5.) Right-click on the Currency.xml file and from the shortcut menu, select 'EDIT'.
- 6.) The Currency.xml file will show in Notepad as plain text.
Important: It is best to back up this original file first. So, click FILE » Save AS » type CurrencyBackup.xml » click Save button.
- 7.) Click inside the text area in Notepad and then press CTRL+Home simultaneously so you are able to start from the top-most part of the text.
 - a. Click 'Edit' menu » select 'Replace'
 - b. At the 'Find and Replace' dialog box, at the Find what: box type NKr and at the Replace with: box type NOK.
 - c. Click 'Find Next' button and it will highlight NKr.
 - d. Click 'Replace' button to replace it.
 - e. Continue clicking 'Find Next' button and 'Replace' (you will do this 14 times) until finished.

f. Click FILE » Save AS » type Currency.xml » click Save button. It will ask you to overwrite the existing file. Click Yes/Ok.

- 8.) Open your shop in ShopFactory.
- 9.) Enable 'Rebuild All' by selecting Settings menu
- 10.) Save and Preview your shop in external browser.
