---

You have 2 options when printing PostNL address labels &ndash;

**OPTION 1. Use the correct Label type &ndash; Avery: 4 Labels per vel**

- Click MY ORDERS button in ShopFactory to connect to your Total Care interface. (Or login to [www.globecharge.com](http://www.globecharge.com) with your username and password)
- Click on ORDERS menu -> select all the orders you want to print
- Click on ADDRESS LABELS link at the bottom of the page
- Click **Instellingen** in the Type label: section
- You must select &ldquo;**Avery: 4 Labels per vel**&rdquo; and make sure the margins are all correct

**Compatible label producten: PostNL Label**

- Click Submit button

**Note:** The merchant may also need to disable print headers and footers. The **PRINT** dialog appears and you simply disable the &ldquo;Print: **Headers and Footers**&rdquo; option.  
In my example, I am using **Google Chrome** browser as it is straightforward:

**OPTION 2. Use the &ldquo;PostNL Shipping Address labels&rdquo; option**

- Login to [www.globecharge.com](http://www.globecharge.com) with your username and password. (Or click MY ORDERS button in ShopFactory to connect to your Total Care interface)
- Click on ORDERS menu -> **PostNL Shipping Address labels**
- Then the merchant can simply enter the shipping information required as per below screenshot:
