- Go to Product Templates
 - Click *Add product* toolbar button
 - Enter “ProductCode ABC123” (or whatever is appropriate) as the Product Title
 - Click “**Product Properties 2**” and add a **Product Code** as shown in the below screenshot:
 - Click OK
- <New product template added, like this:>
- Go to the department or page where you want to apply the same “Product Code” (Or you can also go to *List of Contents*)
 - Click the LIST tab to view all the products or go to ITEMS LIST
 - Right-click and select *View settings*
 - Tick Product Code checkbox. Click OK.
 - Now, select all the appropriate products that you want to apply the same “Product Code”;
 - Right-click on the selected Products.
 - Select “Copy values from a product template to all selected products”;
 - Ensure “ProductCode ABC123” product templates is selected.
 - Tick “Product Code” checkbox
 - Click OK
 - All the selected products will now have the same “Product Code”;
 - Go back to the shop-wide discount and **limit discount by “Product Code”**;
