To allow your customers to pay you through PayPal using their credit card or debit card without having to sign up for a PayPal account, you need setup this option inside your PayPal account. A) When you use PayPal – Website Payments Standard, your customers can pay you with PayPal, their credit card, or debit card. *The instructions may vary depending on your PayPal account - the steps below are intended as a guide only.* 1. Sign in to your PayPal account 2. Select the **My Account** Tab 3. Then choose **Profile** 4. Under the Selling Preferences links - locate the link called "**Website Payment Preferences**", then click on it 5. Look for the option called "**PayPal Account Optional**" 6. You will see two radio buttons "on" and "off". Select ON - when this feature is turned on, your customers will not be required to sign up for a PayPal account to make payment. 7. Click SAVE Check the related article below. If you have any questions about this please contact PayPal Support directly.
