1. In the Left Tree click on the Page you want to edit meta tags on.   2. In the Toolbar choose the Page Menu   3. Click Enter Details for search engines (meta tags)
 On this window you can enter a Page Title, Description, Search words and you can change the page file name from D1 to D1_mypagename.html for example.   4. You can repeat this for every page on your shop / website
