Please use the Google Analytics code dialog specifically intended for this purpose -

ShopFactory Central page

1. Open your shop in ShopFactory software
2. At the left tree menu, click *ShopFactory Central* page -> click the "**Search engines (SEO)**" button
3. Locate the "**Google Analytics Code**" box and then paste your code as shown in screenshot:
(*Note: Do not enter your keywords in the Google Analytics box - the search words are added in the product wizard and page properties dialog - **SEO details** section*)
