1. Download the file from http://download.shopfactory.com/support/CurrencyPricespace-new.zip.
2. Once you’ve downloaded, extract the content of the zip file to your desktop. Right click on the zip file, click Extract to Specified folder, and select Desktop as your destination folder.
3. The content of the zip file is a text file, open it and copy the content.
4. Now, open shop in ShopFactory
5. Click Properties->Edit Website HTML
6. Click + button to add the code
7. Paste the copied code from the text file that you have extracted
8. Select Position 2
9. Click OK->OK
The currency and the product price should now have a space between them.
