10-0008-EN-Product Discounts: Setting up "Quantity Disc...

Author:
ShopFactory

Created On: 29 Jan 2018 11:24 PM

- Open shop in ShopFactory
- Locate the page where the product is contained
- Click the product and click "Edit Product"
- At the left tree menu, click on DISCOUNTS

- You can add a "Special Discount Message" that will appear in the product section i.e. *Bulk discounts available*

- Click on the dropdown button to select one of the "***Product discount methods***" -> choose **Quantity Discount – By Percentage**
- Click the + button and define the first range for example, 0 – 10 range @ 4% discount or you can set the first 10 products as full price so set it as 0% discount

- Click the + button again and the 2nd Range: from 10 – 30 @ 5 %
- And so on – see screenshot below:

- Click OK
- Save and preview your shop
- Place a test order for that product and purchase the quantity ranges you set to see the product price changes as you add more product quantity in the basket.
- Save and publish your shop
An example of how it looks like in the shop when you have quantity discounts available:
