---

- Open shop in ShopFactory
  - Add a new Product Template with **no-image.png** as product image
  - Click on "Use Template" button to enable it
  - Then tick the "Picture" and other fields you want to be automatically used when adding a new product – see above screenshot.
  - Click OK
  - Go to a page where you want to add new product
  - Click ADD PRODUCT
- (Ensure "Use Template" is enabled on the toolbar)
- You can see the fields ticked as "Use template" are pre-populated:
