-Open shop in shopfactory
-Locate the page where you’ve added the links
-Right-click then select Page properties
-On the left tree, click “Link to other pages or product”
-Under “List of links”, select the item that you want to remove
-Then click OK button

-Click OK
-When you have deleted the existing links, you can now insert your own links by clicking the page/product you want to link and then click >> button to add it to the list of links. Or if you want to add an external website link, simply type the complete URL on the Internet Address box and click the >> button to add it to the list of links. You can edit the link and add image and description to appear on the link section.

-To edit the link, double click the link from the List of Links section and then insert the image as well as the description for the link.
-Click OK
-Save and preview shop
